

## How to Install the Park National Bank Secure Browser

A link will be sent via email to download the Park National Bank secure browser. Once selected, the install application may take a few minutes to fully download.

Please note that you will launch the installation file differently, depending on your web browser.

1. Launch the **Park National Bank Secure Browser Setup** wizard.

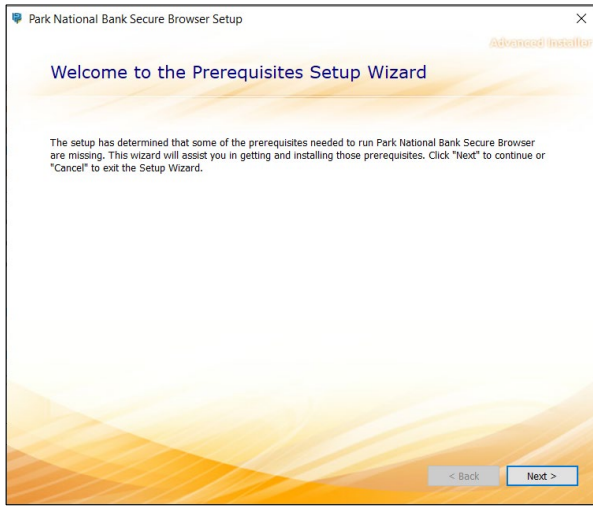

IF	THEN	THEN
You download the file via <b>Google Chrome</b> ...	The file downloads to the download bar at the bottom of the browser.	Click the download to launch the installation. 
You download the file via <b>Microsoft Edge</b> ...	The file downloads via a dialog box, generally under the address bar.	Click <b>Open file</b> to launch the installation. 

**Result:** The Park National Secure Brower Setup wizard launches.

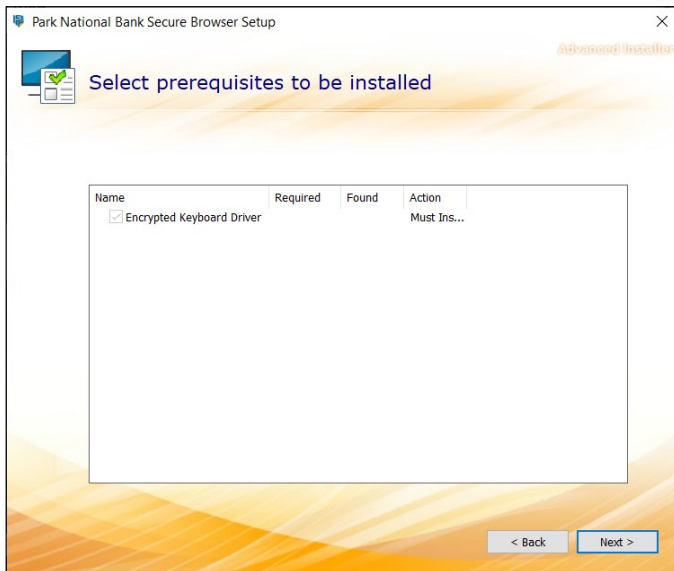

**Note:** The installation file will download to your **Downloads** folder regardless of the browser you use.

2. Click **Next**.

3. Click **Next**.

4. If the **User Account Control** dialog box displays, click **Yes**.

**Note:** Some organizations may block you from downloading software. Follow your internal organizational guidelines so the installation can be completed. You may need to contact your system administrator.

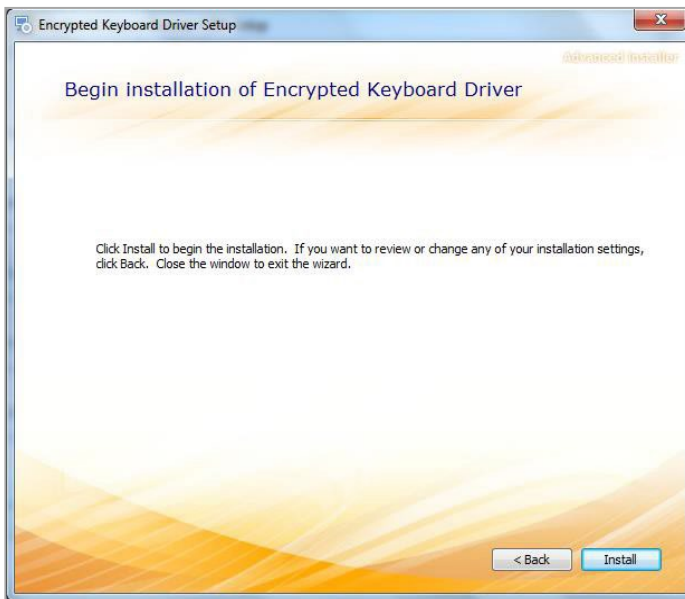

**Result:** The installation wizard continues.

5. Click **Next**.

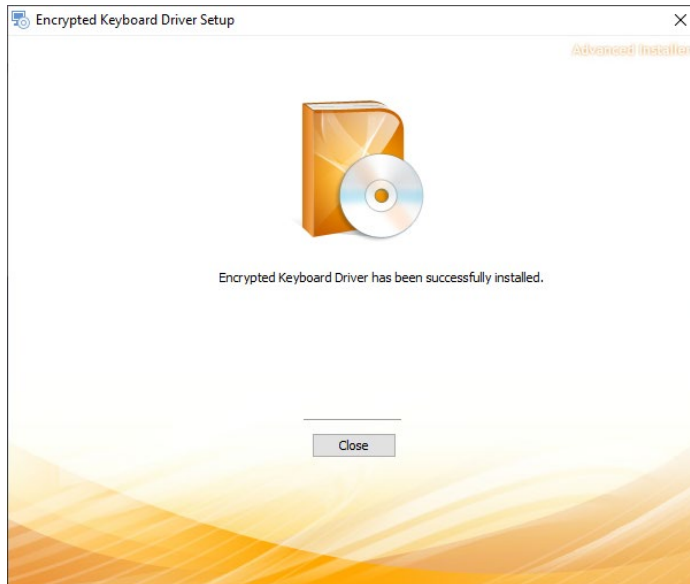

6. Click **Install**.

**Result:** The secure browser installs.

- When the setup is complete, click **Close**.

**Result:** A dialog box displays asking to restart your computer.

- Click **Yes**.

**Result:** The computer will close and restart. After restart, the wizard displays to continue the installation.

- Navigate through the **Park National Bank Secure Browser Setup** wizard by clicking **Next** until you reach the install window.
- Click **Install**.

**Result:** The install progress bar displays. Once the installation is complete, the secure browser will launch automatically.
